- Critical Thinking

Experience

Data antry

I am currently working part-time at a company that works as a data entry. I worked part-time for the past three years, from 2021 to 2024. The experience I gained from this work was first related to a lot of my knowledge. I gained knowledge related to the use of the system and the operation of the system. In addition, about teamwork, we worked together and solved problems together on issues we encountered.

Projects at school

For research work, I have developed a number of research projects that have yielded decent results, it is a kind of web application operating system. like web news dynamic webshop and small gym system . All project here :<https://github.com/Punleulove>
